WORK EXPERIENCE

Kubeshop (Open Source Incubator), Remote

Sep 2022 - Present

Product Leader

- Helped building the product and raising awareness around Kusk, a Kubernetes Ingress Controller/API Gateway that uses OpenAPI as configuration.
- Supported the product holistically from website and documentation, to helping the development team in building amazing developer experiences and catching customer use cases/problems.

Kubeshop (Open Source Incubator), Remote

Feb 2022 - Sep 2022

Developer Advocate

- Built awareness on the product by writing developer content, giving presentations and organizing conference participation.
- Example of my writing: <https://medium.com/@aabedraba>

GreenMobility, Copenhagen, Denmark

Jun 2020 - Nov 2021

Fullstack Developer with no CSS :)

- Serving our +200k customers with new products and features, and working with 1k vehicles with embedded systems; having shaped our platform since its infancy.
- Managing cross-functionally software releases to our customers with Operations and Marketing teams.
- Keeping a feedback loop into the organization's road-map and projects' re-prioritization and process simplification.

Google, Madrid, Spain

Sept 2018 - Oct 2019

Developer Relations

- Managed relationships with 65 Google developer communities and fostered creation of 15 new ones in Western Europe.
- Training 800 students in universities by leading a training program on Google technologies.

EXTRACURRICULAR

Community Organizer

Open Source Projects

- Edge Gateway: an API Gateway running at the edge with Cloudflare Workers.
- React Most Wanted: React starter-kit built with most wanted features.
- Kusk Gateway: a Kubernetes Ingress Controller driven by OpenAPI.
- RSA: implementation of RSA cryptosystem in C++

SKILLS

Spoken Languages

English, Spanish, Arabic

Stacks & Tools

Serverless environments, Kubernetes, NextJS, GraphQL/OpenAPI

Programming Languages

Typescript

Misc

Chess and math lover! Member of ACM and FSF.
